<http://globalindex.worldbank.org>

# Global Findex Database by World Bank

- The Global Findex Database is a collection and analysis of data conducted by the World Bank on the borrowing, spending payments and risk management abilities of people
- It has been started with support from the Bill and Melinda Gates foundation and has been calculated once in 3 years since 2011
- It is primarily an indicator to analyze the extent of financial inclusion in the world with focus on the developing economies
- Link : <http://globalfindex.worldbank.org>

# Bloomberg Gender Equality Index

- The Bloomberg Financial Services Gender Equality Index is a collection of data across companies to analyze efforts to reduce gender inequality and improve the gender balance
- It comprises of data about the gender balance, company policies, product offerings etc.
- It is a voluntary index that makes gender related data available to the investors and general public
